I am excited once again to send a group to this hotel. Custom Sport Tours three years ago started business with this tennis resort. Due to the high standard of the hotel and tennis club it is a favourite among tennis lovers, you will not be disappointed.

Tennis Program

(12 hours)

As this trip is open to all members, we will be using the [KLTK rating system](#) to put you in the correct level group to make sure you get the most out of the tennis program.

Puente Romano has a great history, famous players such as Björn Borg and Manolo Santana have worked as head pros here. The current owners have put a lot of investment into hotel and club and have succeeded in creating a five star tennis resort that you will not be disappointed with.

“One of the nicest tennis destinations in the world”

Puente Romano is one of the nicest tennis resorts I have ever been to. The hotel has an old Spanish village type design, with established tropical gardens and several pool areas. The perfect place for a tennis trip.

“tennis heaven”

Perfectly looked after clay courts will be your place of business. Expect the best coaching in the best conditions. Have fun on court!
